Experience

ArthaVedh - ML Engineer

- Implementing AI technologies in banking sector.
 - Currently contributing in data collection, data preprocessing, data modelling, model building.
-

Projects

Smart Flow - Adaptive traffic signal time optimization

- Detect the cars in the lane and adjust the timings of the green light signal
 - Detect the cars in the lane and adjust the timings of the green light signal
 - Detect the cars in the lane and adjust the timings of the green light signal
-

Education

KIT College Of Engineering, Kolhapur

Bachelor of Technology, 89.83%

Certifications
